Fully immerse yourself in a variety of health environments and scenarios. Our brand new interactive Immersive Room combines innovative technology, augmented reality, interactive 3D graphics and audio content to give a creative multi-sensory learning space.

Running on the very latest cutting-edge technology, the Immersive Room allows for visual, auditory and sensory immersion, as well as letting students interact with the environments and objects projected onto the walls by simply walking up and touching them.

The space enables student cohorts across the Institute of Health to engage in fully immersive simulations that can take them anywhere – from the home of a 70-year-old dementia patient to the site of a motorway accident – within seconds.

All our scenarios are created in-house and are tailored exactly to the relevant health profession and learning outcomes of each session.

CARLISLE

Brimming with culture and a dynamic student scene, Carlisle is the perfect place to make the most of student life. When you're not hitting the library, discover the beautiful architecture of Carlisle Castle and Cathedral, browse our quirky, independent shops, or catch live music and comedy at the Sands Centre. The city's cultural calendar is studded with fun events throughout the year, too – grab your friends and sample ales and ciders at the Carlisle Beer Festival. And Carlisle's nightlife is plentiful, with everything from cocktail bars to pubs and clubs.

Our Fusehill Street Campus has its roots set in history. Health and Science have been practised and studied here since World War I when our campus was a hospital for the wounded, later becoming Carlisle's Maternity Hospital.

This tradition of scientific discovery and incredible healthcare continues today as we train the health professionals and scientists of tomorrow.

Carlisle is a vibrant Cumbrian city, with buzzing bars, restaurants, parks, and Instagrammable hidden gems.
